

Why ClearView Power Screen?

Hidden away when not in use, the ClearView Power Screen affords protection for your interior furnishings and helps to lower energy bills. The Invisible Power Screen offers an unobstructed view while reducing the harmful effect of the sun's rays.

Invisible

Sleek 4.25" Aluminum Housing

Housing, guide bar and rails are made from high grade extruded aluminum, then powder coated for a professional finish. All nylon components are high impact UL-Rated highest quality material.

Power Screen Specifications

Width	Height
Up to 22 ft. 6 in.	Up to 16 ft.

Color Options Available for Aluminum Housing & Frames

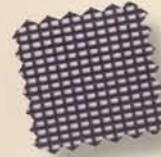

Screen Fabric Choices

Our fabrics are not the typical materials you will find in your home. They have been engineered for extended durability, superior tear resistance and high tensile strength.

* Optional decorator fabrics are available.

- **Super Screen** - Insect mesh that is 5 times stronger than fiberglass. Blocks up to 60% of the sun's rays.

- **Solar Screen** - Excellent for daytime privacy without blocking the view. Blocks up to 85% of the sun's rays, while still allowing light to enter.

- **Privacy Material** - Complete block-out material that blocks out up to 100% of the sun's rays.

Optional Weather Sensor

When the sun rises, the Power Screen extends automatically and when wind picks up, it retracts to prevent damage to the screen.

Compact Remote

It's simple to operate up to four Power Screens separately or in unison. Complies with Part 15 of the FCC rules.

*Custom colors available upon request
